10th	ISCE	Chinmaya Vidyalaya, Kunnumpuram, Kerala, India	2007	76%

PROJECTS UNDERTAKEN

Main Project: System for Restoring Low-Quality QR Code Images

Our project proposes a complete pre-processing system for restoring low-quality quick response code images. The target application for the system is to restore and decode a code image in a cell phone when the image is shown in another cell phone or electronic display.

➢ *Front End: **Android***
➢ *Back End: **Java***

Mini Project: Theatre Reservation system.

Our project aims to provide the easiest method of reserving tickets in a Theatre. Our project was done with database (SQL) and java language. Our project also gives the user additional details about the details of movies, availability of seats, cost etc. and efficiently manage the accounts also.

AWARDS & ACHIEVEMENTS

➢ Actively participated in quiz, C gaming, C Debugging conducted in the college.
➢ Won 19th rank and gold medal for PCM scholarship exam conducted at National Level and won A Grade and 1st class for the same exam for two consecutive years.
➢ Won first and second prizes for working model, still model, Chart (Biology and Mathematics) on Academic Science fair held at Chinmaya Vidyalaya Kunnumpuram, Kerala, India.
